

# Meanwhile in Abingdon ...

Earlier this August, I was in England, south of Oxford and in walking distance of Abingdon. As a counter-point to the more contemplative and sombre purposes of the trip, I occasionally posted images to my Facebook account, many with at least vaguely amusing captions. Each caption began with something like “Meanwhile in Abingdon”. This little publication is a collection of those images, plus several more.

I hope this collection gives you, at the very least, a smile.

Cheers, Sean
