

A PHOTO PROCESSING LESSON

Posted on 2017-02-05 by spd_wp_admin

Dear Reader,

Yes, this is the same photo as the last post. There is a difference though. I was not happy with the sharpness, so I revisited how the last photo was done. The previous photo had been a sandwich of three images all with slightly different exposures. This photo is a sandwich of two photos and to my mind is just that little bit sharper. I am happier.

Cheers, Sean
