

# NO HYDRO POLES

Posted on 2017-03-28 2017-03-28 by spd\_wp\_admin

Dear Reader,

I know its been a while. It is the nature of work. On my drive to work just north of Calgary, there is a road that goes off to the west. I have been thinking that it showed promise for over a month. Saturday, I drove down that road for a kilometer or seven.

Cheers, Sean

I like shots of the gently rolling landscape building to mountains in the background.
