Dear Reader,

The image below has suffered from compression and some detail has been lost. If you want to see the nice and crispy version, let me know and we can arrange to meet.

If you missed yesterday's introduction it can be found here: [ra-000-introduction](#), and thank you once again to those who commented. It seems I am not alone in my condemnation of Instagram.

Image Size without white border

-> 45.5 inches x 51.0 inches at 300 pixels / inch.

Proposed Print Size including 2.75 inch white border left, right, top

-> 42 inches x 55 inches at 300 pixels / inch
